BRIDGE COLLECTION

Design by Oriol Guimerà and Joan Cinca

The innovative button that appears to float on the plate is the distinctive element of the Bridge collection. Designed to create a complete sensory experience, the beauty of its sculptural lines, the feel of its fine materials, the sound and the interplay of light and shadow created when used; makes Bridge a jewel for the wall.

MORE COLLECTION

Design by Moredesign & Font Barcelona

More collection is inspired by the landscape of the Sierra de Tramuntana in Majorca and the values of its architectural legacy: beauty, simplicity, natural materials and timelessness. Thanks to the ergonomics and minimalism of its push button and its production with untreated brass, More transcends the ordinary and the trends to improve over the years.
